

Which parts of my life need to reflect my faith? *More Than Words*

Read James 2:14-26

Takeaways from the Message:

If you are following Jesus, there should be signs that follow. There should be evidence. Your actions and what you say should match up.

Faith without action is dead. We have this idea that your faith is private. We can push it into Sundays and Bible studies and then do what we want the rest of the time. But the problem with this thinking is that it doesn't match with Christianity. All through the Bible we see that God is concerned with every part of our life.

Something to reflect on:

1. If you were in court facing charges of being a Christian, what evidence would there be that you are a Christian?
2. In which areas of your life do you struggle to follow Jesus?
3. What can you implement into your life to help you to not just say you are a Christian but also live out your faith?
